-----  
(75-1/2022-PCI Application Development (Part-A))

- 7.1 It was directly taken up.

7.2 It was noted that 413 EC (22.8.2024) under Item No.1.7 decided as under -

1.7 During the meeting, EC Members raised the concern that wherever Council asked for the compliance of deficiencies pointed out in inspection report from the institutions, office select “Not Approved” option from available decision letter module whereas the institution is already approved for previous academic session. It creates confusion amongst the Examining Authorities, Admission making authorities, institutions etc. that institution is approved earlier or not. At present in the decision letter module on PCI portal, there are 3 drop down menu in the approval status of each course i.e. approved / not approved / reject. In view of it, it was decided to add the one more menu in the approval status drop down i.e. “compliance pending”.

7.3 During the EC meeting, EC members pointed out that institutions are facing issues as there is no clarity in the decision letter issued by PCI for 2024-2025. As per the EC decision deficiencies are conveyed to institutions through portal but while conveying the decision through portal, decision letter reflected Zero intake / Not approved under the heading “Approval status and intake” which reflects that institution is not approved by PCI whereas institution is already approved by PCI.

7.4 In view of it, it was decided to issue the clarification on the PCI website in this regard for clarity.

7.5 It was also decided to instruct the IT department to make provision in the software immediately as per 413 EC (22.8.2024) under Item No.1.7.

The meeting concluded with a vote of thanks to the chair.
