- 441st EC dt. 13.02.2026

Sir/ Madam,

This is to reiterate and further strengthen the directions already issued by the Council regarding the implementation of the Aadhaar Enabled Biometric Attendance System (AEBAS) across all PCI-approved Pharmacy Institutions, in pursuance of the Gazetted Notification S.O. 1362(E) dated 21.03.2025 issued by Ministry of Health & Family Welfare.

As per the said notification and subsequent Council circulars, all approved institutions were mandatorily required to complete the AEBAS registration and onboarding process as prescribed under the centralized attendance monitoring portal of PCI i.e. <https://central.pci.ac.in/>.

It is observed that many of the institutions have not yet implemented/registered on the AEBAS portal. Institutions are therefore directed again as a strict compliance to ensure completion of the following steps without any omission **on or before 01.03.2026 positively:**

1. Acquire and install approved AEBAS biometric devices in alignment with the specifications outlined in the previous circulars for the device procurement. Further, all institutions must update the record on the DIGI-PHARMed Portal in the AEBAS section.
2. All PCI Approved institutions must register their institution and complete onboarding of all their faculty (with valid BH-P ID) on the Central AEBAS Portal (<https://central.pci.ac.in/>).
3. Register and configure the devices through the nodal login, following the detailed instructions outlined in the Nodal Officer Manual available at [https://central.pci.ac.in.](https://central.pci.ac.in/)
4. All faculty members need to be verified and activated through the nodal admin dashboard, followed by synchronization of devices for real-time attendance tracking.
5. All authorized teaching faculty are required to regularly record attendance using the registered biometric devices.

Organizations are instructed to refer to the comprehensive AEBAS Implementation FAQs and User Manuals found on the PCI website for assistance with onboarding, device registration, and user management.

Compliance Note: It is important to note that any institution that does not fully complete the AEBAS registration and onboarding process, including acquiring devices, registering them, onboarding faculty, and regular marking of the attendance in AEBAS, **institutions will be placed under category not to make admin for the academic session 2026-27.**

Incomplete registration, malfunctioning devices, or failure to onboard faculty on the AEBAS portal will be regarded as non-compliant.

Therefore, all institutions are directed to strictly follow the above instructions and finalize the process well ahead of the specified deadline.

For any technical assistance or grievance related to AEBAS registration, institutions may log a request through the PCI Grievance Portal at <https://digipharmed.pci.gov.in/#/login-issue> under the category "AEBAS / Technical Issue."

(ANIL MITTAL)

Registrar-cum-Secretary
