Ref.No.14-56/2026-PCI (Approval Process for 2027-2028 a.s.)

To all the Existing Pharmacy Institutions**2027-2028 Academic Session****Sub: Opening of Portal for Introduction of New Course (INTRO) and Raise of Intake (RAISE) of existing courses.****Ref: PCI circular No. 14-56/2025-PCI (Approval Process for 2026-2027 a.s)**
dt. 30.3.2026

Sir/Madam,

With reference to the subject cited above, it is informed that the INTRO and RAISE portal is opened throughout the year, subject to the academic calendar and timelines prescribed. Accordingly, PCI is enabling institutions to submit their applications through portal.

Please note that:

- The Intro/Raise application for 2027-2028 Academic Session has been already considered based on the SIF submitted by the institutions as the separate portal.
- Only those institutions that have successfully submitted their Standard Information Form (SIF) for the Academic Session 2027-2028 shall be eligible to apply for INTRO and RAISE application once the new portal is opened based on the future communication of PCI.

Note: For institutions which have not applied for the 2026-2027 academic session will be required to firstly submit the Standard Information Form for 2027-2028 academic session once the Council opens the portal. Subsequently, the Intro/Raise application window will be opened for these institutions.

Important Instructions:

- The portal shall be used exclusively for submission of INTRO and RAISE applications only. This application should not be considered as an existing SIF application for the given academic session by any existing institutions.

- The institution must note that the application received till 14th November along with statutory documents will only be considered for the prospective session as per the academic calendar.
- Institutions are advised to ensure that all pre-requisite requirements and documentation are completed prior to submission. The application is divided into two phases i.e.
 - Phase 1: Submission of Statutory documents and additional necessary documents.
 - Phase 2: Once the first stage of statutory documents submission is approved by the Council, then institutions will receive option to update the additional documents and information for their applicable category. In case, the Phase 1 is not “approved” then institutions application will be not considered for the Intro/Raise and neither will the option to submit Phase 2 appear.

The application will be considered as submitted only after the completion of Phase 1 with approved status and submission of Phase 2 details by the institutions along with the OTP authentication. If any institutions have only Phase 1 status as “submitted and approved” but did not complete the Phase 2 application then such applications will not be considered for the Intro/Raise Consideration of those existing institutions.

Yours faithfully

(ANIL MITTAL)
